ABOUT ME

As a Full Stack Developer with 2+ years of experience, I specialize in front-end, back-end, and mobile development. My expertise includes JavaScript, HTML/CSS, PHP, and frameworks like Bootstrap, jQuery, Ionic, Vue, and Laravel. I've worked on diverse projects, including e-commerce and real estate management systems. Currently pursuing a part-time Bachelor's degree in Information Technology at Open University Malaysia, I'm in my second semester, continuously expanding my IT knowledge and skills. Eager to learn and grow.
